"Craig Brown appointment is bad business judgment"

by Anne Randall Stewart

Spokesperson for The Sun City Formula Registry

Publisher of <http://www.annereport.com>

In the Feb. 27 My View, The Recreation Centers of Sun City, Inc.'s President Vance Coleman said his fiduciary duty is to the corporation. However, Article III says it is to the members of the Corporation.

Coleman's "business judgment rule" throws cold water in the faces of the members by alerting them to the fact that the board can make bad business decisions with impunity. Remember the Sundial roof collapse?

This is why the Sun City Formula Registry was created. The members must watch the board and stop them before they make bad decisions; before it's too late. Coleman has stopped taping meetings to keep us from doing that.

Additionally, Vance Coleman's letter whitewashed Craig Brown's ill-advised appointment to the board by claiming the "official" demise of the legal committee happened when Brown wasn't on the board. The fact is that Craig Brown was the chair of the legal committee and he was the one who stopped convening the committee after being told that his policies were illegal. Coleman claimed the members of the old legal committee won't participate anymore. A huge red flag.

FACT: Craig Brown made the motion to increase the quorum for membership

meetings. He never reconvened the legal committee to review it first.

The RCSC contends their attorney said it was OK to raise the membership meeting quorum. Why would an attorney advise his client to break the law? ARS 10-11023.B was disobeyed.

It is not in the members' interest for the board to increase the quorum for a membership meeting. The Arizona Legislators thought so, ergo, 10-11023.B was enacted.

Craig Brown is directly responsible for our hiring Nancy Mangone, Esq. (who beat the RCSC twice before) to protect membership interests by reversing the illegal quorum action, etc. Send checks made out to "Anne Stewart" with a "Legal Fund" notation to 10526 W Tropicana Cir, Sun City, AZ 85351-2218. (Donations are not tax-deductible.) Contact me at 623-933-6192 and anne@annereport.com to get on The Registry.

Vance Coleman can thumb his nose at you when he makes bad "business judgments". Think about that while sunbathing at Marinette pool gazing up at the humongous fake "Christmas" tree emitting dangerous electromagnetic radiation from its "hidden" communication tower because General Manager Jan Ek "likes money."
